- Programs
 - Mentorship program
 - Woodworking 101
 - Turning 101

Member Program

Objective:

1. To assist all DWC members (any skill level) in the area of specific project builds. To enhance and build each members woodworking skills with hands on training, on an as needed basis.
2. To train all new members in the safe operation of all DWC equipment & protocols, while teaching woodworking hands on fundamentals at the beginner, intermediate & advanced skill level.

Mentorship Program

- Chris Lapine will lead the mentorship program, he will assess the needs of the club member, Chris will either directly work with the club member or assign a club mentor to work directly with each club member.
- Contact and scheduling can be done directly with Chris through email chris.lapine@rogers.com

Woodworking 101

- Rob Peros will lead in the Woodworking 101 program
- Woodworking 101 will be a group setting of three to four club members, lead by a club trainer.
- Each trainer will take new members through a “hands on” lesson teaching set up, use and safety of each large power tool, while building a specific project.
- All new members must complete the woodworking 101 course prior to using any of the large power tools.

Woodworking 101

- Woodworking 101 will be mandatory for all new members from an effective date of 2014, any new members prior to 2014 will be grandfathered.
- First classes will start in early February, additional information will be provided.
- Contact and scheduling can be done directly with Rob through email rperos.dwc@primus.ca

Turning 101

- Denis Lalonde will lead the turning 101 course.
- Any new members wishing to use the club lathes must take the turning 101 course.
- Turning 101 is a three weekend course, lead by Denis which teaches turning essentials.
- Contact and scheduling can be done directly with Denis through email denislalonde@sympatico.ca

Thank you
